

SANTA CLARA COUNTY TRANSIT AGENCY

For regular service, SCCTA purchased 50 articulated vehicles built by the Canadian UTDC in 1987/1988. The present service requires only a fraction of these vehicles, but when the entire 20 mile line is opened in 1991, all 50 vehicles will be needed. Here car 809 waits at the Convention Center Station inbound to the transit mall and Great America amusement park in Santa Clara, Calif.
